

Sir

K-Love serves me as a resident by allowing non-profit organizations to announce their events. Mostly the "No commercial" format gives a much need station to escape the constant commercial/political blather that congests other stations. K-LOVE does considerably more for the public interest than the City Government here.

IF the KLOVE repeater is displaced by an LPFM broadcaster it will be very bad for the community and our society. The last thing we need is more blather. Please do not displace KLOVE.

Thanks

Jim
